About Us

SK EXPORT AND IMPORT, established in 2025 and based in Virar West, Mumbai, is a fast-growing exporter of fresh produce, grains, millets, and Ayurvedic health products. We aim to bridge India's agricultural abundance with global markets by offering premium organic and conventional food products. Our range includes vegetables like bell peppers, asparagus, and cherry tomatoes; fruits such as dragon fruit, pomegranates, and mango pulp (Kesar, Alphonso); as well as microgreens, shiitake mushrooms, wheat, rice, and millets — all sourced from certified farms and suppliers.
